

Engage with us in January, Go Live by April.

It doesn't take long to start reaping the benefits of the Avetta supply chain solutions. Reengage with us in January and we can go live by April. That gives you 9 months of supply chain excellence in 2021— **no more administrative bottlenecks or manual tasks**. By joining Avetta, you'll gain great strides in protecting and improving your supply chain—and many of those benefits are immediate.

As an Avetta member you get instant access to:

- ✓ A global network of 100,000 suppliers to help source new projects
- ✓ An exclusive online marketplace where you can get discounts on safety products, insurance, and safety related services
- ✓ Global and experienced HSE & Sustainability teams to drive strategy and performance.

Within one month of joining Avetta, Deciem, an international manufacturing organization, was able to achieve a 32% increase in their contractor count.

Within three months, the benefits grow exponentially.

In the first month of a partnership:

- Our Implementation & Technology teams scope and deliver a technology platform configured specifically to each new client's requirements.

In the second month of a partnership:

- Our Supplier Success team assists suppliers in setting up profiles in new clients' platforms, completing prequalification questionnaires and loading required documents in their profiles.
- New clients gain a competitive procurement advantage by leveraging the Avetta platform to source new suppliers from the 100,000 suppliers registered with Avetta.

In the third month of a partnership:

- Our Audit team reviews any supplier documents requiring audits, identifies gaps and communicates deficiencies to suppliers for resubmission.
- New clients can require their registered suppliers to provide critical information like site orientation training, licenses, certifications, background checks or drug screening for their employees coming on site.
- Internal stakeholders can utilize their platform for supplier performance reviews and scoring.
- Internal stakeholders can mitigate risk, improve safety and make data driven decisions with dashboard visibility to each supplier's information and compliance status.

Many of your suppliers are already in our system, so what's holding you back?
