Avetta Mobile Worker Management

On-the-go access for Clients, Suppliers, and Workers

The Avetta Worker Management enables clients and suppliers to track compliance and qualifications of every worker who steps onto their worksites. The Worker Management Mobile App takes that ability even further - into the field, onto the worksite. Wherever the client or supplier goes, the app goes too. You can now view worker compliance statuses, monitor attendance, search for your workers, track their requirements from wherever you may be.
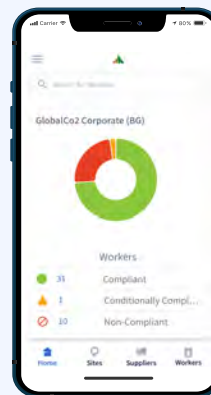

# The Capabilities

For Clients

Time and Attendance Management

Quicken check-in and check-out processes with digital badges

Compliance Visibility

Address supply chain risks by viewing compliance statuses of all connected sites and workers at a glance

Track Requirements

See details of a worker's completed or pending requirement, and search, sort, and filter lists of workers

For Workers

Enhanced Worker Experience

Optimized worker experience with self-registration and digital badges

Track Compliance and Requirements

Easily check pending requirements, completed tasks, and expiration dates
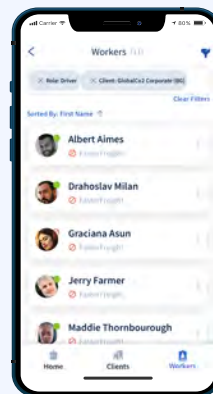

For Suppliers

Site and Worker-level Visibility

Address operational risks by viewing compliance statuses of all connected sites and workers at a glance

Worker Management

Conveniently scan a worker's badge, and search, sort and filter lists of workers

Experience reduced risk and safer worksites with Avetta Worker Management now 'On-the-Go'

Want to start saving time? Download the Avetta Worker Management App.
