

One Supply Chain. One Platform. Avetta One

Enabling clients and suppliers to manage supply chain safety, sustainability, and risk

Today's organisations focus on top spend suppliers to manage risk. However, this may overlook risks across the rest of their supply chain. Thousands of injuries, fatalities, environmental events, carbon emissions, and cybersecurity data breaches are caused by suppliers that are not as proactively managed as top spend suppliers.

The risks you see are only a fraction of what exists in your supply chain

Avetta One: A One-Stop Supply Chain Risk Management Platform

Supply chain risk management is challenged by siloed departments, tools, and systems. A holistic view of health & safety, diversity qualifications, financial viability, liability, sustainability & ESG, and cybersecurity risk is rare. Clients miss critical insights, and suppliers are overwhelmed with too many tools and fees using multiple solutions. This is where Avetta One provides an answer.

Avetta One is the industry's largest Supply Chain Risk Management (SCRM) platform. It enables clients to manage supply chain risks and suppliers to prove the value of their business.

For clients:

A unified platform that manages risk across safety, liability, workforce qualifications, sustainability, diversity, financial health, and cyber security programs.

For suppliers:

A reduction in time and cost being able to demonstrate superior business qualifications, across many clients, from a single system.

For workers:

A centralised workforce portal where they can digitally store their required job roles, trainings, competencies, and certifications.

For partners:

An open marketplace and community to provide services on the world's largest SCRM platform.

Key Capabilities

Supplier Classification and Onboarding

- Avetta's core platform uses a unique process of automation, technology, and services to efficiently onboard suppliers into its risk and compliance platform.
- Avetta's proprietary risk classification engine automatically assesses the level of risk this supplier brings to the client. This allows Avetta to map a supplier to an appropriate service-level tier or membership level.

Risk Modules

- The Risk Modules provide clients with industry-leading capability when it comes to prequalifying suppliers against established compliance standards. Module offerings include an expansive solution suite for all possible supply chain risk scenarios that a company may face.

Expert Services

- **Verification:**
Avetta employs a large pool of full-time verification professionals that ensure supplier and worker insurance, certifications, and licences are both compliant and valid.
- **Assessments:**
Avetta's Supplier Assessments services help clients uncover hidden risks by combining lagging and leading indicators. The assessment services are available both onsite and remote where high-risk suppliers are audited against established compliance standards surrounding health and safety, ESG and sustainability, liability, financial viability and more.

→ **Advisory services:**

Advisory Services provides unique customer insights through risk assessments ranging from quick essentials to deep dive quantitative evaluations. Outcomes provide a holistic view into current vulnerabilities and actionable insights for multiple risk types.

→ **Training:**

Avetta's training services allow clients to assign courses, training, certification requirements, and compliance tasks for their workers.

Workforce Qualifications

- Avetta Workforce Management empowers suppliers and clients to determine the set competencies required for each role and worker delivering services.
- Worker roles are mapped to the competency and training required to conduct a job safely and efficiently. Worker training, certifications and qualifications are verified so clients are ensured that qualified workers are conducting work for their businesses.
- Avetta's Workforce Induction & Learning Management system is an automated, adaptable and scalable learning solution that enables clients to plan and establish training for their workforce.

Integrations

- Avetta One offers 2-way APIs and a software development kit (SDK) where partners and client IT organisations can integrate Avetta data end points with their ERP, 3rd-party partner, and back-office systems.
- Clients use Avetta's APIs to ensure that only properly vetted and qualified suppliers are deployed to their jobs and work sites.

Analytics

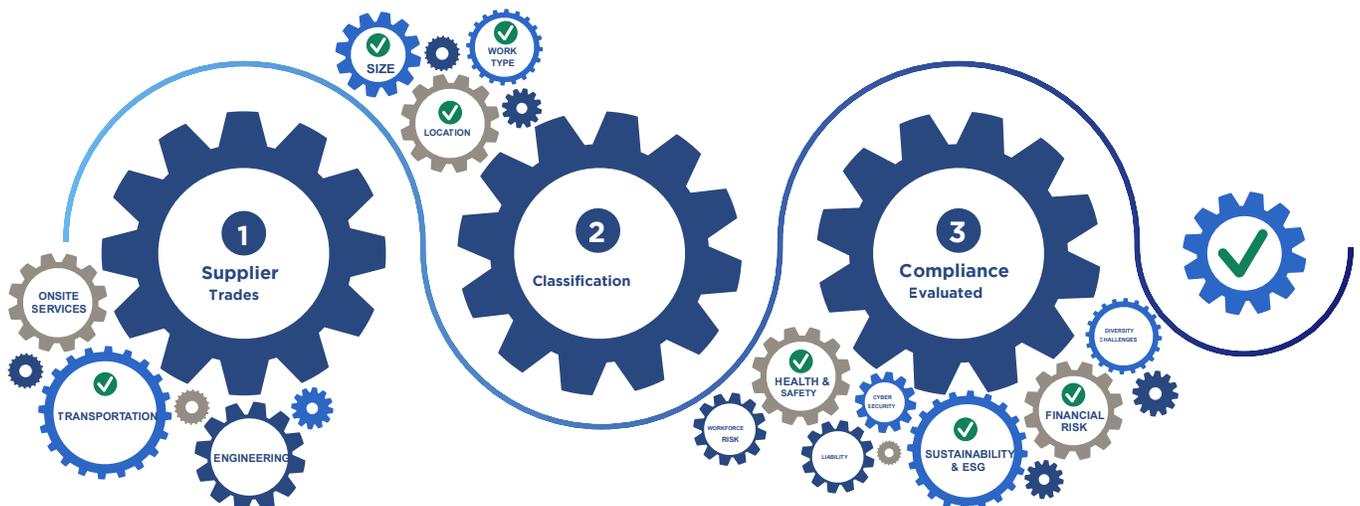

- The new Avetta One platform provides robust risk dashboards, a robust analytics platform, a best-practices standard report library and new AI solutions.
- Clients can access real-time insights on their programmes like supplier and worker compliance, supplier compliance onboarding progress, safety, financial, cybersecurity, diversity qualifications and Sustainability & ESG risk insights by site, location, and supplier.
- Avetta One has one of the most robust supply chain risk analytics platforms in the industry. Client business analysts, programme managers, and executives along with Avetta's own internal support teams have access to configurable reports that have a deep drill-down capability.
- As part of the core platform, Avetta provides additional insights based on industry benchmarking, market trends, and predictive recommendations.

Manage Risk for any Supplier

Built with complex supply chains in mind, Avetta organizes and keeps all of your supplier documentation up to date, accurate, and available at any time.

About Avetta

The Avetta SaaS platform helps clients manage supply chain risk, and their suppliers, to become more qualified for jobs. For the hiring clients in our network, we offer the world's largest supply chain risk management network to manage supplier safety, sustainability, worker competency and performance. We perform contractor prequalification and worker competency management across major industries, all over the globe, including construction, energy, facilities, high tech, manufacturing, mining, and telecom.

For suppliers in our network, our audit and verification services help lower their safety incidents rate by 29%. As a result, about 50% of members find additional job opportunities within the first year of joining. In addition, our suppliers receive privileged access to the Avetta Marketplace, where dozens of partners offer special discounts for business services like insurance and work gear. Avetta serves more than 500 enterprise companies and over 125,000 suppliers across 120+ countries.
