Avetta Open Platform Benefits

**Easy-to-use**
REST API standard protocol architecture makes it easy to access.

**Secure**
API key authentication ensures that all push-pull data exchanged is secure.

**Real-time Data Updates**
Registration information, compliance statuses etc. are all synced in real-time.

**Better Decisions**
View Avetta's supplier data across several platforms for improved decision-making.

Avetta’s Self-Service API Portal

Your IT organizations can set up any integrations you need using the easy-to-use self-service portal

**Detailed documentation on integrations**

**Sample Codes**

© 2022 Avetta, LLC
