

# Pegasus Workforce

---

Connecting  
A Qualified Workforce

Pegasus Workforce collects and verifies worker qualification, ensuring the competency and safety of everyone accessing your sites and projects.

Determine and set the qualifications of each person working for you

## How It Works

### Add Workers

Using company login details, a company administrator can enter and edit their worker details in the system, including their contact details.

### Select Worker Roles

The company selects site and project roles for each worker. Role selection determines the qualification documents (for example, trade licences) that must be uploaded, and the online and site inductions that must be completed (see Induction and Learning

### Upload Qualifications

With their roles chosen, relevant documentation to support the worker's qualifications and competencies can be uploaded for verification.

## Manage Worker Access to Sites and Projects

Order and pay for physical ID cards, or invite workers to the mobile app for access to sites and projects.

# Identity Verification

Identity checks may be completed if required

Avetta collects identity data and verifies it against trusted data sources.

## Qualifications Validated and Applied to Worker

Avetta validates all documents and worker data. Company administrators will be emailed to update information if required. Avetta assigns competencies to workers and approves their registration when all inductions have been completed

### Worker Mobile App

The Worker Mobile App is where cardholders manage their own profiles, edit personal information, add work roles, update qualifications, and upload licences.

Pegasus Workforce manages risk, increases productivity and controls compliance, keeping your workforce safe on site.

### About Avetta

The Avetta SaaS platform helps clients manage supply chain risk, and their suppliers, to become more qualified for jobs. For the hiring clients in our network, we offer the world's largest supply chain risk management network to manage supplier safety, sustainability, worker competency and performance. We perform contractor prequalification and worker competency management across major industries, all over the globe, including construction, energy, facilities, high tech, manufacturing, mining and telecom.

For suppliers in our network, our audit and verification services help lower their safety incidents rate by 29%. As a result, about 50% of members find additional job opportunities within the first year of joining. In addition, our suppliers receive privileged access to the Avetta Marketplace, where dozens of partners offer special discounts for business services like insurance and work gear. Avetta serves more than 500 enterprise companies and over 125,000 suppliers across 120+ countries.
